Dynamic hanging system in the workspace

IMAGINE IT magazines is a dynamic hanging system that injects more colour and energy into ordinary workplaces. This new Artiteq concept allows inspirational magazines and trade journals to become part of the office in an appealing way. The great thing about this system is that it is unobtrusive: because of its minimalistic design, IMAGINE IT magazines almost appears to float. As well as being a presentation system, IMAGINE IT magazines is the fastest and most stylish way of dividing a department into different autonomous workstations. This ensures that a pleasant and open atmosphere is preserved, at the same time allowing sufficient privacy to enable individuals to focus on their work.

A narrow cable runs along both sides of the IMAGINE IT magazines hanging system which connects the horizontal rails to one another. Through a special mechanism in the end caps, the height of the various magazine rails can be adjusted. This enables a rail to easily be slid upwards or downwards, thereby immediately creating a different look. The rails are available in a 99 cm, 133 cm and 166 cm design, for 3, 4 or 5 magazines. You can also opt for magnetic suspension against a steel wall.
